43,500 VISITORS 25% international

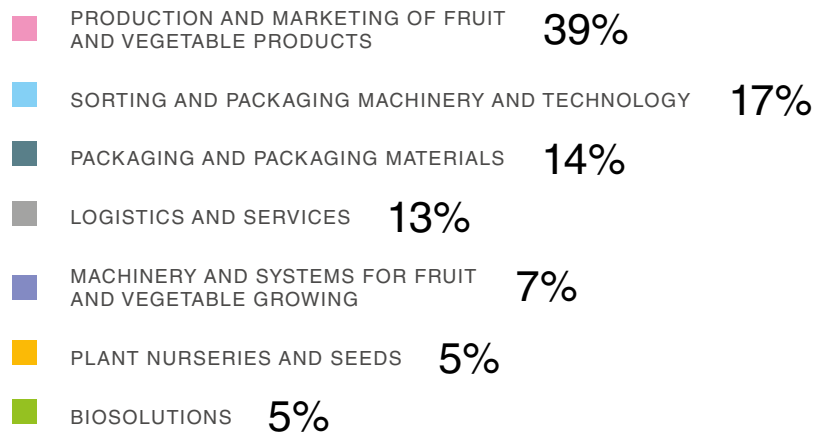

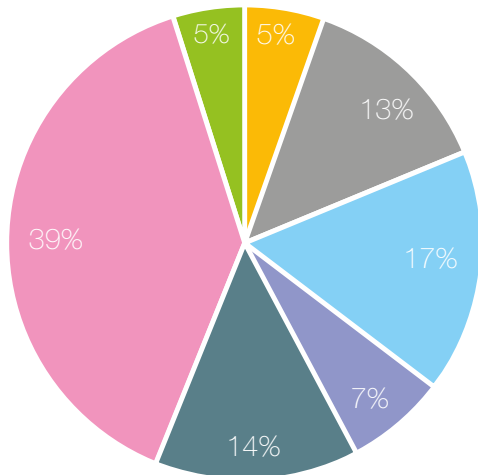

Macfrut is the international trade fair for the fruit and vegetable industry, a B2B event for sector professionals and opinion leaders from more than 90 countries.

It is a benchmark event that brings together major industry players, innovations and market trends, offering a unique business platform that allows participants to expand their network of business contacts and enter new markets.

Exhibition onsite

SARDINIA PARTNER REGION

Located in the heart of the Mediterranean Sea, Sardinia is renowned for its high-quality agricultural produce such as the spiny artichoke, the Carciofo Spinoso di Sardegna DOP, and its saffron, Zafferano di Sardegna DOP, which are a source of well-being and active longevity. This longevity can be attributed to the high quality of life associated with the intrinsic value of the products that are grown on this land, respecting traditions and without intensive farming.

ITALIAN RETAILER BUSINESS LOUNGE

At the exhibition centre there will be an area dedicated to the large-scale retail trade and Italian retailers. This area will host targeted meetings with the exhibitors scheduled through a dedicated matching program in cooperation with Think Fresh.

BIOSOLUTIONS INTERNATIONAL EVENT

Companies producing bioprotection, biostimulant and special nutrition products will be showcasing their products in an International Exhibition area during Macfrut. Here agricultural entrepreneurs and sector specialists will have the chance to find out more about major innovations in the fields of sustainable defence and nutrition.

Once again, Macfrut will also be hosting the International Congress that brings together the Mediterranean fruit and vegetable supply chains and the world of biosolutions.

B2B MEETING AGENDA

Visitors will have the opportunity to organise their time at the fair by planning meetings on 7 - 8 - 9 September through the virtual stand provided to all exhibitors who join the tradeshow: the meetings can be organized on site for those who will physically participate in the event, or online for those who connect remotely.

Exhibitors will also be able to prepare their own agenda of meetings in advance by scheduling appointments with selected international Buyers who take part in the Buyer Program.

ASPARAGUS DAYS

A focus on the entire asparagus supply chain with an exhibition area hosting specialist companies and conferences dedicated to the latest technical and commercial updates in the industry.
