Who Should Attend ICAS 2026

The ICAS 2026 offers researchers, students and senior professors, an international platform to showcase the latest research findings in agriculture sciences. Oral as well as poster presentation opportunities would be available for participants with accepted research submissions.

Welcome from the Chairs

We are excited to announce that the 2026 International Conference on Agriculture Sciences: Agroecology and Sustainable Systems (ICAS 2026) will be held in Bologna, Italy, from 21 to 23 October 2026.

Showcase your research and connect with a global community of leading experts, industry representatives and practitioners in the agricultural sciences disciplines.

We look forward to welcoming you in Bologna!
