A MESSAGE FROM THE ORGANIZERS

AgWATEC Spain 2016 is the first Exhibition & Conference on Agriculture, Water Technology and Environmental Control taking place in Seville, Spain. The event is an initiative to promote cooperation between the Spanish and international companies. Spain in general and Andalusia region in particular are well established with world class infrastructure, organizations and technologies in Water , Agriculture technology and environmental control industries.

Three days at Palacio de Exposiciones y Congresos de Sevilla in **FIBES**, the New Conference Centre , will be a unique opportunity for companies to show case their achievements to potential clients and partners and for all professionals dealing with Water, Agriculture technologies and environmental control to discuss, create new joint ventures and partnerships.

AgWATEC Spain 2016 offers the perfect opportunity to hear from and meet a range of growing Agriculture and Water Technologies, Energy and Environment companies seeking a combination of partners, investment and professional services to develop their companies.

As part of the event, a professional conference will take place alongside other events and professional panels on issues of agriculture technology & water treatment in the various industries.

Participants will be able to enjoy pre-arranged one on one networking via the meetings system – Chance2Meet.

————— **See you at AGWATEC Spain 2016** —————

▶ ABOUT SEVILLE

Is the capital and largest city of the Andalusia and the province of Seville, Spain. It is situated on the plain of the River Guadalquivir. The Seville harbour, located about 80 kilometres (50 miles) from the Atlantic Ocean is the only river port in Spain. Seville is also the hottest major metropolitan area in Europe, the fourth-largest city in Spain and the 30th most populous municipality in the European Union.

The Guadalquivir borders Doñana National Park reserve, which is considered the largest nature reserve in Europe. The use of river water to boost agricultural production by irrigating land along the coast, water pollution by upriver mining.

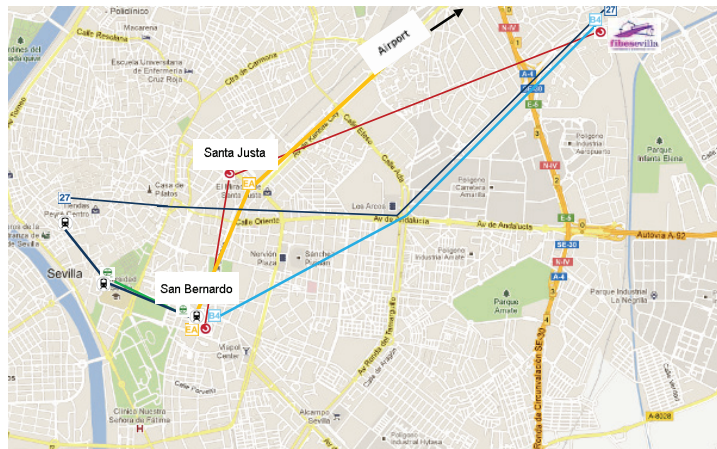

How to get there:

LOCATION

FIBES is located in the eastern part of the city between San Pablo International Airport (4 km) and Santa Justa Main Train Station (4 km) and is easily reached by car or shuttle thanks to its proximity to the ring road, and it is very well connected by public transport.

- Local circular train C-4: San Bernardo station - Santa Justa Main Train Station - FIBES
- Tram: runs from San Bernardo station to the city hall (pedestrian area)
- Metro: stops at the city centre and San Bernardo station.
- River: a new lock will allow big cruises to reach Seville.
- Airport bus: runs from the airport to Santa Justa Main Train Station and San Bernardo station.
- Local buses: lines 27 and B4 reach FIBES from the city centre and San Bernardo station.
